

PAKO FESTA

The Bellarine Catchment Network Pako Festa 2018 Report

At this years Pako Festa, the Bellarine Catchment Network joined forces with the Geelong Sustainability tent to engage with the Festa attendees and open a discussion about sustainability and what it means for Greater Geelong.

200+ Participants

340 Materials Distributed

In the booth, the BCN had displayed a variety of materials, including the 'Be a Local Hero' posters, bin stickers and informative cards. People were very interested to learn about the 'Local Hero' species and the work that the BCN was doing to help protect and enhance the ecosystems of Port Phillip Bay.

During the parade, the BCN had "Keep Our Bays Clean" picket signs available for attendees to hold up.

"Clemy was so inspired by the stall at Pako Festa she has set up her own Geelong Sustainability corner in her bedroom"

Well done to Clemy, our enthusiastic participant and sustainability specialist!
