

# Point Lonsdale Primary School Environment Day Report

Wednesday the 29th of August 2018

Point Lonsdale Primary School, Bellarine Catchment Network, Parks Victoria and Swan Bay Environment Association were welcomed by a sunny end to winter for our annual environment day.

Students enjoyed three activities; a beachcomb facilitated by Parks Victoria, a Coastal Moonah Woodland flora & fauna walk guided Swan Bay Environment Association and lastly the Coastcare Environment Challenge Course hosted by Bellarine Catchment Network.

Students rotated through the each activity to learn about what inhabits Point Lonsdale's natural areas and how to reduce their impacts on these areas.

Point Lonsdale students learning about what lives in the intertidal zone with Nick from Parks Victoria (left) and students enjoying the days activities (right).
